Experienced manager. Experienced in the management of multidisciplinary designers teams (small and big, domestic and international), responsible for hiring, motivating, talent development, mentoring cross-functional team members, enhancing team spirit, efficiency, coaching, inspiring, team building, etc. Maintaining a high-level and diverse team culture.

Practitioner of UX and Design Thinking approach and agile methodologies – co-working, co-creation, customer-centric, based on permanent, very different research on every stage of a specific project/task - converting results into meaningful insights and further into a valuable product. AI enthusiast.

Lecturer at the Polish Japanese Academy of Information Technology Warsaw - faculty of UX design

It's me

- Working on UX/UI Design field for all types of screens-digital and tangible touchpoints
- Managing the integration of AI tools into the UX design process
- Actively developing new AI-powered tools and services
- Upskilling team members on a wide range of AI subjects
- Taking an active part in building and developing Design Systems for big global brands
- Co-creating, co-working, conducting of brainstorm/workshops with an engaged team and a clients
- Conducting design projects based on the newest agile / human-centered / design thinking methodologies
- Designing of research assumptions and its scenarios regarding current goals
- Testing assumptions, concepts, and prototypes with end users (also with experts / clients)
- Analyzing qualitative and quantitative results of research - converting them into useful insights
- Tracking measurable parameters of projects, gathering conclusions for the future
- Effective collaboration with product management, product development, and business owners
- Being up to date with the newest trends, and technologies (also software) - sharing this knowledge
- Preparing dedicated procedures and processes due to optimizing workflow and achieving the best results
- Building, developing, managing and taking care of design teams members - UX/UI/Motion/Graphic designers
- Promoting of open and diverse team culture and key values like empathy, respect, curiosity

An additional fields of experience (very useful when it comes to the UX/UI design scope)

- Creativity - I worked in a few advertising agencies in the Creative departments. Positions from Junior Art Director to Creative Director. Inventing creative ideas by myself and managing as a leader, pipelines of creative processes, was exactly what I did for a living.
- Architecture - I'm a co-author (as an interior designer) of 4 metro stations and 1 railway station in Warsaw / Poland. A remarkable and unique experience of being part of huge public projects.
